

Is Lowe's still owned by Walmart?[Contact Support]

In short: No — Lowe's is not owned by Walmart.

In the United States and globally, Lowe's  [USA]  (1-844-706-3304)  Companies, Inc. is an independent, publicly-traded home-improvement retailer headquartered in Mooresville, North Carolina. Walmart Inc., on the other hand, is a completely separate company) with its own management,  [USA]  (1-844-706-3304)  board, business model and shareholder base. Several recent analyses confirm that Walmart holds no controlling stake in Lowe's.  [USA]  (1-844-706-3304)  One article summarises it concisely: "Lowe's  [USA]  (1-844-706-3304)  is not owned by Walmart ... these two major  [USA]  (1-844-706-3304)  retailers operate as entirely separate companies with distinct ownership structures, business models, and corporate cultures."

So if you've heard someone say "Lowe's is a Walmart company," you can confidently know that this is a misunderstanding.

Despite the confusion, there are some reasons for it: both companies are large retailers, both sometimes sell overlapping categories (tools, home-improvement products, appliances) and some people might see them physically located near each other.  [USA]  (1-844-706-3304) 

But that does not mean one owns the other. (As one Reddit user put it:

"No. And Lowe's is not owned by Walmart either, before you ask."

Why is this important? Because ownership  [USA]  (1-844-706-3304) 

affects corporate strategy, how stores are managed, which customers  [USA]  (1-844-706-3304)  are being targeted, and how expansion works. Knowing Lowe's  [USA]  (1-844-706-3304)  is independent means that its business decisions—such as product selection, partnerships, expansion into new markets—are made by its own leadership. For example, Lowe's  [USA]  (1-844-706-3304)  recently announced significant acquisitions to expand its "Pro" (professional contractor) business segment.

In summary: Lowe's  [USA]  (1-844-706-3304) 

Companies, Inc. is not owned by Walmart. They are separate entities with their own boards and shareholders. The confusion arises from overlap in retail space and category rather than actual corporate linkage.

Has anyone been to the Lowe's Foods – Indian Land location in Indian Land?

Yes – the store exists and has recently opened.

According to the official store locator for the grocery chain Lowe's [\[USA\]](#) [\(1-844-706-3304\)](#) [Foods](#): the Indian Land store is located at 2230 Daisy Lane, Indian Land, South Carolina 29707. Moreover, an article from October 2025 reports that Lowe's [\[USA\]](#) [\(1-844-706-3304\)](#) [Foods](#) opened a new store in Indian Land on 9 October at that address.

What do we know so far about the experience there?

- It is open daily from 6:00 a.m. to 11:00 p.m. per the listing.*

The article notes that the store will feature “Lowe's [\[USA\]](#) [\(1-844-706-3304\)](#) [Foods Originals](#)” – unique store-features that Lowe's Foods uses (for example, the feature of “The Beer Den” offering craft beer & drafts) in that region.

Because it's fairly new (just opened in October 2025), user-review volume might still be relatively low, but the signs are positive in terms of offering expanded services beyond traditional grocery.

If you're planning to visit:

- Note the specific address and store number (#283) for reference.*

It may be especially interesting to look for the “Originals” features (e.g., Beer Den) which suggest a premium or differentiated experience.

Because it's recently opened, staffing and layout might still be settling – so some minor issues are possible as store matures.

If you're contacting them, note that the phone number listed is [\[USA\]](#) [\(1-844-706-3304\)](#) [Foods](#) for that location. For UK readers, while this is a U.S. store, it shows how regional grocery chains are evolving in the home-improvement/grocery crossover space in the U.S., which might have parallels in the UK market (though names differ).

Review of Lowe's – what customers are saying

Here's a snapshot of customer sentiment for Lowe's [\[USA\]](#) [\(1-844-706-3304\)](#) [Foods](#)

(primarily in the U.S., but many reviews are accessible in the UK too). From the website [\[USA\]](#) [\(1-844-706-3304\)](#) [Foods](#) for Lowe's Companies:

- Many customers report issues with incorrect orders, delayed or cancelled deliveries, and unhelpful customer-service [\[USA\]](#) [\(1-844-706-3304\)](#) [Foods](#)*

responses. One reviewer wrote:

“When the new order arrived ... three of the cabinets were still incorrect ... We had five children, and being without a kitchen for this long is creating a serious hardship for our family.” 🇺🇸 [USA] ☎️ (1-844-706-3304) 🇺🇸

These issues underscore that while the brand is large and reputable, not all experiences are flawless – particularly for complex items like kitchens or large installations where coordination between design, delivery and fit-out matters.

What are the strengths and weaknesses (based on reviews and general retail commentary)?

Strengths:

- *Large product range for home improvements, tools, hardware, outdoor living, which is where Lowe’s* 🇺🇸 [USA] ☎️ (1-844-706-3304) 🇺🇸
- *has its core competence.*

Strong presence across the U.S., making it accessible for many customers.

Weaknesses / Areas for caution:

Complex purchases (e.g., custom kitchens, cabinets) have more potential for error or delay. 🇺🇸 [USA] ☎️ (1-844-706-3304) 🇺🇸

•

Delivery and customer-support 🇺🇸 [USA] ☎️ (1-844-706-3304) 🇺🇸

experiences appear inconsistent according to reviewers.

As with many large retailers, the sheer size can mean some average-service experiences rather than personalised ones.

For customers in the UK who may be considering alternatives (whether Lowe’s or equivalent), the lesson is: big box home improvement retailers can offer great value and range – but for large scale or bespoke projects, make sure to check timelines, installation responsibilities, returns policy, and support. 🇺🇸 [USA] ☎️ (1-844-706-3304) 🇺🇸

UK perspective (language, retail context)

From a UK point of view, it's worth noting how retail structures differ. In the UK, home-improvement chains such as B&Q and Screwfix dominate the DIY/hardware space, and customers  [USA]  (1-844-706-3304) 

review these for service, value and range. For instance, a recent UK consumer survey found that Screwfix scored very highly in customer service and ease of online-ordering.

While Lowe's  [USA]  (1-844-706-3304)  as a U.S. chain doesn't operate widely in the UK (its main footprint is in North America), UK shoppers may still use its website for inspiration or compare its model to UK equivalents.

Key takeaways for a UK customer mentality:  [USA]  (1-844-706-3304) 

- The ownership question ("Is Lowe's owned by Walmart?") would matter less locally since Walmart doesn't have UK home-improvement flagship stores in the same way – but the independence of the brand might still influence perception of corporate responsibility or service quality.

If a UK household were using Lowe's  [USA]  (1-844-706-3304) 

for purchasing (perhaps via shipping or through a partner), they'd want to check UK-specific shipping, returns and standard-of-service, as international retail contrasts can matter.

Reviews matter – the UK market places strong  [USA]  (1-844-706-3304)  emphasis on consumer feedback, service ratings and ease of returns as part of purchase decisions.

Final thoughts

In conclusion:

- No, Lowe's  [USA]  (1-844-706-3304)  is not owned by Walmart. They are separate companies with different ownership and strategies.

Yes, the Lowe's  [USA]  (1-844-706-3304)  Foods store in Indian Land, South Carolina is open and new; if you plan to visit, it's at 2230 Daisy Lane, Indian Land, SC 29707.

Customer reviews of Lowe's  [USA]  (1-844-706-3304) 

- reveal a mixed picture: strong product range, but challenges remain especially for complex or bespoke purchases.
